STATISTICS CANADA PUBLICATIONS ON MICROFICHE
COMPLETE COLLECTION 1850-1980

INTRODUCTION

Micromedia Limited is pleased to publish this user's guide to the "Statistics Canada Publications on Microfiche" collection.

This guide was compiled from the holdings lists of the microfiche collection following the completion of an eight year filming project. Therefore the listings under each title reflect all available microfiche for that particular title. Notes are entered where items are missing from the collection. Micromedia will continue to search for missing items in order to improve this important historical collection of statistical information. We welcome communications and assistance from interested libraries. Please use the Reply Form located at the end of the book to notify us of items your library might provide for filming.

The titles and publication information shown for each title was derived from the English and French editions of the "Historical Catalogue of Statistics Canada Publications 1918-1980". Users will notice differences between the publication listings and actual microfiche holdings. In order to preserve the integrity of the publication notes in relation to the official Statistics Canada publications, we have not altered these notes.

Micromedia wishes to acknowledge the assistance of the staff at the Statistics Canada Library, under the direction of Georgia Ellis and Peter Faulkner, without whom this project could not have been completed.

Instructions for Use of This Guide

The following terms appear at the top of each page:

Dates of Publication			
Begins	Ends	Covers	
1977	1978	1971	This refers to the dates of the publications themselves. The "Begins" column is used before 1974 to indicate the actual data year/s. After 1974, this refers to the ending year and is used in split-year publications. "Covers" is used after 1974 to indicate the actual data year of publications. In the example shown at the left, the publication has an 1977/78 imprint and the data year is 1971.
No of Fiche			This is the actual number of microfiche for each item listed.
Notes			These notes are particular to the microfiche collection only.

These notes appear, when appropriate, under title listings:

First Issue	This refers to the date the publication was first issued.
Last Issue	This refers to the date the publications ceased publication.
See Also	This refers users to additional catalogue numbers for more data.
Continued by	This lists catalogue numbers that continue the publication.
Supercedes	This lists catalogue numbers that preceded this publication.
Notes	These notes are as published in the "Historical Catalogue..."

MEMO TO: Statistics Canada Microfiche Backfile Customers

FROM: Bob Gibson

RE: STATISTICS CANADA USER'S GUIDE

We are pleased to enclose a complimentary copy of the recently published user's guide to the "Statistics Canada Publications on Microfiche" collection, 1850-1980. (1985)

The publication of this guide follows the completion of a two-year project to update the originally filmed Statistics Canada collection by adding many new publications and refilming others to correct technical errors.

The guide will provide detailed access to the updated microfiche collection and to all publications that our sources have been able to locate and microfilm.

We are continuing our search to fill in missing publications, and welcome co-operation from libraries that may be able to supply any of these publications for microfilming. Please use the form at the end of the book to notify us of such cases.

Updates to this publication will be sent as they are completed. Individual replacement pages will be sent to update the guide as missing publications are located for filming. A similar guide will be published next, to include the 1981-1984 microfiche collections; subsequent annual updates will be produced every two or three years.

Additional copies of this guide are available at a cost of $50 each. For libraries who have not yet purchased the microfiche update collection to their original backfile, this collection is still available. The addition of this collection will complete your holdings to correspond with this guide. Please inquire for details on the microfiche update.

We hope this guide offers improved access to and provides an accurate inventory of your collection. We look forward to any assistance you may provide in developing an even more complete collection.
